Essential Networking Solution

The LaCie d2 Network offers professional, reliable, central storage for instantly storing, sharing, and backing up from any PC or Mac® on your network. Manage your home or small office network easily with this full-featured file server, recommended for networks with up to 50 users (15 at once). With the LaCie d2 Network, you can share files among Windows®, Mac, and Linux users thanks to its SMB and AFP protocols support, or connect remotely through FTP, HTTP, and HTTPS file systems.
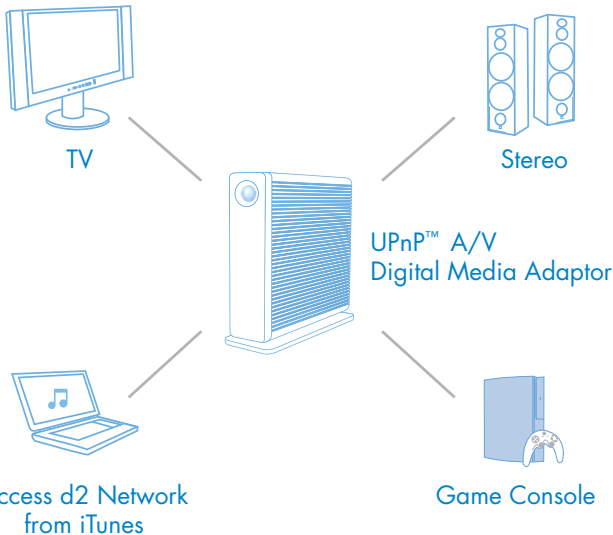

Back Up Your NAS Content

Get extra security and increase data portability by backing up your LaCie d2 Network— on your own schedule— to an external hard drive through its USB ports using the built-in backup system. The LaCie d2 Network comes also with Genie Backup Manager Pro™ for Windows and Intego Backup Manager Pro™ for Mac to install on each PC/Mac for client backups to the NAS. This software lets you reliably and efficiently back up your documents, emails, settings, or other digital assets; it supports compressed, encrypted, or image backups and initiates a computer recovery program in case of general crash.

Multimedia Server Capabilities

With the LaCie d2 Network, it's easy to stream multimedia content to your television. You can play your media on any UPnP AV-compatible Digital Media Adapter (DMA), such as a PS3 or Xbox, without needing a computer—you can store the information directly on the LaCie d2 Network. In fact, the d2 Network has been developed to be compatible with any DLNA multimedia device, and also works with iTunes®. You can also download torrent files automatically with the LaCie d2 Network without even having to turn on your PC.

- Share files easily among PC, Mac, and Linux users
- Fanless, heat sink design for quieter operation
- Back up to external hard disks with USB or eSATA
- Active Directory, Wake-on-LAN
- Stream your multimedia files to UPnP players

1TB* =

125,000 songs
or 500 movies
or 100,000 office presentations**

A Multiprotocol Solution

SMB or **SAMBA**	Network file transfer for Windows, Linux, and Mac***
AFP	Network file transfer for Mac clients
HTTP	For accessing d2 Network admin and files using a Web browser
HTTPS	For those who prefer a secured connection using a Web browser
FTP	For accessing files remotely using FTP clients
Bonjour	For making files searchable through the network
BitTorrent™	For downloading large files from the Internet without a PC or Mac on

Quick Access

Controlling access is simple; you can assign various security levels to shares, groups, user profiles, and public access. With Windows ADS domain support, there's no need to recreate existing user and group accounts of your Windows domain, making it easy to manage for IT Administrators. Thanks to the Wake-on-LAN feature, the LaCie d2 Network can be switched back to operating mode from the client side.

EXCLUSIVE D2 HEAT SINK DESIGN

Provides 60% more area for heat dissipation and high reliability

Aluminum Heat Sink Design

Standard Design

Avant-Garde By Design

Designed exclusively for LaCie by the world-renowned designer Neil Poulton, the LaCie d2 Network was engineered to maximize reliability and longevity. Its sturdy aluminum body with a unique fanless heat sink design offers natural heat dissipation by providing 60% more surface area. Designed to stay cool without a fan, the LaCie d2 Network works both efficiently and quietly, helping it stand out from the competition. With space-saving versatility, it can stand upright on your desk or lie vertically or be rackmounted with other drives to save space. For added security, there's a Kensington lock-compatible slot on the back.

Easy to Use

With its intuitive Web interface, administration is easy, convenient, and secure. Thanks to the LaCie d2 Network's DHCP and Automatic IP support, network configuration is fast and automatic. The LaCie d2 Network also comes with the LaCie Network Assistant, an easy-to-use program available for Windows, Mac, and Linux users. The LaCie d2 Network keeps its administrator informed with email notifications for backup and downloads, as well as high temperatures and disk damage.
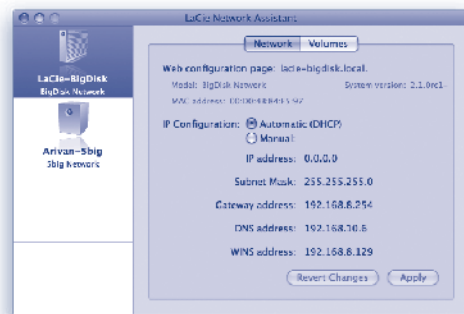

Apple® Time Machine Compatible

The LaCie d2 Network is compatible with Mac OS X v10.5 Leopard, including Time Machine, making it an ideal partner for your Mac. Time Machine automatically backs up your Mac's system files, applications, accounts, preferences, music, photos, movies, and documents to an external hard drive and you can easily go back in time to recover anything.

Features

- Cross-platform (Windows/Mac/Linux)
- Auto IP configuration access
- New Web-based administration page
- Assign shares, groups, user profiles, public, and guest access
- Active Directory support
- Scheduled incremental backup using local ports
- 1-click data import/backup
- Multimedia server
- iTunes-compatible
- Download Machine: BitTorrent download
- Email alert in case of failures
- Wake-on-LAN: turn on/off from the network
- USB 2.0 and eSATA expansion ports
- Aluminum d2 heat sink design
- Fanless
- Genie and Intego Backup Manager Pro software for Windows and Mac

Box Content

- LaCie d2 Network
- Ethernet cable
- External power supply
- Drive stand for upright use
